

Washington State Elections Weekly

February 25, 2015

VRDB | Wait to Transfer

[Remember to trigger your Global Update](#) and do not process any records in Transfer Management in VRDB Admin until all counties have uploaded voting history for the February Special Election. VR Support will send out an email as soon as every county's voting history updates have been processed by VRDB.

VRDB, WEI, and Websites

Attention night owls: CenturyLink is going to be performing fiber optic splicing starting tonight at 11:59 p.m. through Thursday (2/26) at 2:00 a.m. (2 hour window). All internet and phone lines in and out of the Cheney Data Center will be down. This will affect the VRDB, WEI, and WEI Websites.

March Workshops

Your county must attend the in-person regional workshops to complete the COOP Certificate Program. These workshops will not be available online. If you're still interested, it's not too late to register for the [March sessions](#). It's also not too late to email us to join the [Certificate Program](#)!

Signature Training Requested

Have you scheduled a signature verification training in your county? Do you have room for additional attendees? Other counties are looking for signature training opportunities. If you have room in your training, please contact ctsupport@sos.wa.gov.
